

# INFORSE-EUROPE

## Sustainable Energy Study Tours in Denmark

Most of the sites available to visit have been operating for a number of years, many for more than 10 years. The installations have been continually improved as lessons have been learned. Substantial experience has

been gathered during long term operation. INFORSE-Europe study tours present a unique opportunity to learn first hand from this accumulated experience.

Experienced INFORSE-Europe representatives are available to accompany tour groups and provide technical translation.

High quality study tours can be customised to meet the needs of clients from the public, business and NGO sectors including

transport hire and accommodation requirements from comfortable hotels to youth hostels or camping.

**INFORSE-Europe** is part of the International Network for Sustainable Energy, a network set up at the Rio Earth Summit in 1992 to promote sustainable use of energy. INFORSE includes 7 regions with more than 140 member organisations worldwide.

INFORSE-Europe is an independent not-for-profit network with 70 NGO member organisations from 33 countries. INFORSE-Europe has been developing study tours in Denmark to inspire and inform participants and facilitate information exchange on sustainable energy.

### Booking a Sustainable Energy Study Tour

INFORSE-Europe can organise sustainable energy study tours in Denmark based on a day rate of 400 EUR (300 £) for administration.

A quotation can be provided on request which will vary depending on the complexity of the tour and level of administrative support required.

Once an itinerary is agreed, tour participants are usually responsible for directly booking suitable hotel accommodation, with advice from INFORSE-Europe staff if required.

The cost of an INFORSE-Europe guide to accompany a study tour is 460 EUR (350 £) per day.

Visits should be arranged at least one month before the proposed travel date.

For further detailed information or a quotation please contact Gunnar Boye Olesen or Judit Szoleczky at the INFORSE-Europe office in Aarhus, Denmark. E-mail [ove@inforse.org](mailto:ove@inforse.org), Tel +45-86227000. Web <http://www.inforse.org/europe>
